

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Class D Distributing Shares USD (ISIN: IE00BHU87D01) AHFM US Enhanced Equity Fund (the "Fund") a sub-fund of Gem-Cap Investment Funds (Ireland) plc (the "Company")

The Fund is managed by Gemini Capital Management (Ireland) Limited, which acts as manager to the Company

Objectives and Investment Policy

The investment objective of the Fund is to generate capital growth over the medium to longer term.

The Fund intends to achieve its investment objective by investing primarily in US equity markets and aims to provide enhanced market exposure to any positive return in the US equity market, relative to the S&P 500 Total Return Index, whilst providing for a level of capital preservation against negative market returns in anything but the bleakest of market conditions.

To gain US market exposure, the Fund sells puts (a type of Financial Derivative Instrument ("FDI")), triggered only at their maturity (typically six years), if the Index has breached a pre-defined downside barrier and uses the premia generated and the yield from the Gilts to buy a combination of S&P 500 linked calls & call spreads (types of FDI).

The combination of investments is optimised in order to maximise the Fund's intrinsic value relative to the S&P 500 Total Return across all time horizons and market move scenarios, as well as ensuring that the short term exposure of the Fund to changes in the S&P 500 is approximately 100%.

Profit taking is undertaken when the Fund can replace existing investments with new ones which enhance the Fund's intrinsic value relative to the S&P 500 Total Return Index without materially changing the inherent risk profile of the Fund.

The Fund is not subject to any industry sector constraints on target investments.

You may buy or sell shares on any day on which banks in Ireland and the United Kingdom and US markets are open for normal business.

The share class will distribute a quarterly payment equal to 0.75% of the Fund's NAV, and these payments will be generated from liquidating 0.75% of the Fund's holdings every quarter. It is therefore intended that some capital will be eroded over time thereby forgoing some potential for capital growth. Distributions out of capital may have different tax consequences to distributions of income and the Directors recommend that investors seek their own tax advice in this regard. Dividends declared out of the capital of a Fund must be understood as a type of capital reimbursement. Any gains within the Fund that are not distributed will be accumulated and reinvested on behalf of shareholders.

Investment in the Fund is suitable for investors who are seeking medium to long-term capital growth.

Due to the potentially complicated nature of how the investment manager implements the Investment Strategy of the Fund, the Fund's Target Market, as defined within the MiFID 2 product governance guidelines, does not include Execution Only Retail investors. Therefore the Fund should not be purchased by retail investors without them first seeking Professional Investment Advice.

Risk and Reward Profile

The indicator above illustrates the position of this Fund on a standard risk/reward category scale.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean investment is "risk free".

This indicator is not a measure of the risk that you may lose the amount you have invested.

The Fund is in category 6 because of the exposure to individual equities and the volatility of individual equities.

The indicator above does not take account of the following risks of investing in the Fund:

General Investment Risk: the securities in which the Fund invests are subject to normal market fluctuations and may fall as well as rise in value.

Concentration Risk: The Fund concentrates its investment in the United States of America equities. The Fund may therefore be less diversified than other broader based investment funds. To the extent that the Fund invests heavily in one area it may be severely affected by an adverse event which could lead to significant losses

Derivative Risk: The use of derivatives may result in greater returns but may entail greater risk for your investment. Derivatives can also reduce gains you may otherwise have made and may result in greater fluctuations of the net asset value of the Fund.

Credit and Counterparty Risk: There is a risk that the issuer of debt securities or a counterparty to a derivatives contract may not be able to meet interest, principal or settlement payments or otherwise honour their obligations.

For a more detailed explanation of risks, please refer to the "Risk Warnings" section of the Prospectus and Fund Supplement.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges deducted before or after you invest

Entry charge: 0.00% This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.
Exit charge: 0.00%

Charges taken from the fund over a year

Ongoing charges: 0.65%

Charges taken from the Fund under certain specific conditions:

Performance fee: None

The **entry** and **exit** charges shown are maximum figures.

The ongoing charges figure shown here is based on the year ending 31st December 2018. This figure may vary from year to year. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment scheme.

An anti-dilution levy of 2% may be charged on redemptions of 5% or greater of the total assets of the Fund.

More detailed information on charges can be found in the Prospectus, and Fund Supplement, under the section entitled "Fees and Expenses".

Past Performance

Because the share class has less than one calendar year's performance, there is insufficient data to provide a useful indication of past performance.

Past performance is not a guide to future performance.

The Fund was approved by the Central Bank of Ireland on 10 June 2015.
