Class A2 (Sterling Institutional Accumulation) Shares (ISIN IE00B57HGZ54)

Third Avenue Real Estate Value Fund (the 'Fund'), a sub-fund of GemCap Investment Funds (Ireland) PLC (the 'Company')

The Fund is managed by Gemini Capital Management (Ireland) Limited which acts as manager to the Company

Objectives and Investment Policy

The Fund seeks to achieve long-term capital appreciation, primarily through investment in shares in companies.

The Fund is actively managed without reference to any benchmark meaning that the Investment Manager has full discretion over the composition of the Fund's portfolio, subject to the stated investment objectives and policies.

The Fund seeks to achieve its objective by investing its assets primarily in securities of real estate and real estate-related companies, or in companies which own significant real estate assets at the time of investment or in real estate investment trusts ('real estate companies').

These securities will primarily be equity securities (which may include both common and preferred stocks, and convertible securities) of well-financed real estate companies (meaning companies believed to be without significant liabilities in comparison to their liquid resources).

The Fund seeks to acquire these securities at a discount to what the investment manager believes is their true value.

The Fund may also invest a portion of its assets in debt securities (which may include high-yield, distressed and mortgage-backed securities) of real estate companies that the investment manager believes have above-average yield potential.

Exchange traded and over the counter derivatives may be used for investment, hedging or efficient portfolio management purposes.

Please refer to the Fund's supplement ('FDI' section) for more details. You should view your investment as medium-term to long-term.

You can buy or sell your shares in the Fund every weekday on which both the New York Stock Exchange and banks in Ireland are open for business.

The Fund will not distribute any dividends in this share class. Income and gains of this share class will be accumulated and reinvested on behalf of shareholders.

For full details please refer to the 'Investment Objective and Policies', 'Issue of Shares' and 'Redemption of Shares' sections of the Prospectus and Supplement of the Fund.

Risk and Reward Profile

lower potential risk/rewards

higher potential risk/rewards

The indicator above illustrates the position of this Fund on a standard risk/ reward category scale. This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The risk and reward category shown is not guaranteed to remain unchanged and may change over time. The lowest category does not mean investment is 'risk free'. This indicator is not a measure of the risk that you may lose the amount you have invested.

The Fund is in category 6 because of the high range and frequency of price movements of the underlying investments.

The following are risks materially relevant to the Fund which are not adequately captured by the indicator:

In addition to general market conditions, the value of the Fund will be affected by the strength of the real estate markets. Factors that could affect the value of the Fund's holdings are set out in the Supplement.

The value of bonds is likely to decrease if interest rates rise and vice versa and below investment grade securities expose the Fund to greater risk than investment grade securities.

The Fund intends to find value in industries that the investment manager believes to be temporarily depressed. The prices of securities in these industries may tend to go down more than those of companies in other industries.

Due to the Fund's investment policy, the Fund may at times have a significant cash position which may impact on Fund performance in certain market conditions and may make it more difficult for the Fund to achieve its investment objective.

The Fund may use derivatives to try to reduce the overall risk of its investments or reduce the cost of investing, although this may not be achieved.

Adverse movements in exchange rates could result in a loss to the Fund.

A more detailed description of the risk factors applicable to the Fund is set out in the 'RISK WARNINGS' section in the Prospectus and Supplement.
